

Greenville-Butler Co. Library Outreach Form - Schools, Daycares, Youth Centers

The Greenville-Butler Co. Public Library offers outreach programming to our county schools, daycares, and youth centers, to help educate school administrators, teachers, and students on the different services offered by the library, and to provide unique programming opportunities for teachers and students. We are also happy to collaborate on any program with your school's librarian/media specialist, if available. Contact us at: library@greenville-bcpl.org, or by phone: 382-3216, to discuss programs and scheduling a visit to your school. Please Note: Visits are dependent upon the library's current schedule and availability. Every effort will be made to accommodate your request.
